

YOUNG RESEARCHER AWARD

In order to encourage research work in the field of dentistry, Principal office has decided to award 'young researcher of the year' amongst undergraduate and post graduate students. Students have to discuss their ideas with the assigned mentor who will guide them. Students need to get scientific and ethical committee clearance before doing study. Students have to publish their quality research work in the indexed journals (Web of science, Scopus, PubMed). Published paper should have student's name as 1st author. As an affiliation of institute, include "Government College of Dentistry, Indore" as correct name of our institute.
